J Hooten & Co New York

Jer Lox & Co Philadelphia.

The Law Regulating Newspapers and Periodicals

Subscribers who do not give express notice to the contrary are considered as wishing to continue the subscription.

If subscribers order the discontinuance of their papers, the publisher may continue to send them until all arrearages are paid, the subscribers are responsible for all the numbers sent.

If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills and ordered their papers discontinued.

The Courts have decreed that a refusal to take newspapers or periodicals from the Post Office without notifying the publisher and the payment of all arrearages, is prima facie evidence of fraud.

Subscribers to newspapers or periodicals removing are liable to pay so long as the paper or periodical may be sent to the residence of the party at the time of subscription unless notice is sent of such removal to the publication office.

PHOTOGRAPHS

—AND—

Photographic Frames!

S W SAWYER having remodelled his Room at the Old Stand 24 Kenduskeag Br dge, is prepared to make for the public every description of PHOTOGRAPHS and AMBROTYPES in the best style, at the lowest prices as low as good work can be done.

Particular attention paid to Grouping and Taking Outdoor Pictures. Mr S will go to the house to take Pictures of the sick or deceased.

Pictures taken after death copied into Photographs, and in many instances made to look as natural as if taken from life.

Mrs SAWYER continues to finish Photographs in Oil and Water Colors and the finest of Mezzotint, as heretofore.

He has also received a large assortment of Photograph Frames, from the largest manufactory in the country making his stock of Frames the best in the city.

Please call and examine specimens.

YOU CAN'T FIND

An Article that Sells as Well as

HEIMSTREET'S IMITABLE

HAIR RESTORATIVE.

Apothecaries and druggists all testify that

It is the Only Reliable Article

FOR THE BALD AND GRAY

Read the testimony from Kentucky

PADUCAH, Ky., July 27 1860

MR. W A. BELL.

Dear Sir:—I have used HEIMSTREET'S IMITABLE HAIR RESTORATIVE, and am satisfied, from my experience in all other preparations for the like purpose, that it is the only article ever before the public worth purchasing.

Yours truly JOHN G. HARY

PADUCAH, KY., July 27 1860

MESSRS W E. HAGAN & Co Troy N Y

Gents:—After a close and statement of Mr John G Daly a merchant of our city in regard to Heimstreet's IMITABLE HAIR RESTORATIVE. This testimony is given after having used most of the preparations now before the public claiming to be Hair Restoratives, and must be considered conclusive as to the merits of the Imitable. Am out of the large size. Forward by Railroad double the quantity we had before.

Very truly yours. W A. BELL.

IT WILL RESTORE THE NATURAL COLOR OF THE HAIR,

where age or sickness has turned it grey and it will render it soft and glossy.

ANY BODY

who may try it will find that it does not soil the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the hair and thus restores its color and freshness. It can be used as freely as water upon the scalp and with as much safety—is composed of oil and stimulating spirits, and as an article for the toilet, has no equal.

Read this Letter

ST LOUIS MO., June 24, 1859

MESSRS W E. HAGAN & CO.

I be sky certify that my Hair having become gray and my head partially bald, I bought from Henry Reynolds Druggist, one bottle of HEIMSTREET'S IMITABLE HAIR RESTORATIVE. By its use my hair was restored to its original color and thickness, it removed all dandruff, arrested its falling and gave it a rich, glossy appearance. Its effects were entirely different from any Hair Preparation I ever used before. I know of several ladies and gentlemen my intimate friends, who all speak of the "Imitable" as being the best and cheapest Hair Preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WILLIAM BUSHNELL.

Read one of the many letters received by the Proprietors:

ST LOUIS, MO. Aug. 2, 1860

Messrs. W E HAGAN & Co Troy N Y—Gents: The happy results attending the use of Heimstreet's IMITABLE (in every sense of the word) Hair Restorer, seems to demand that I should give my testimony that other ladies might profit by it. I have never used a hair preparation that I liked so well. It has completely restored every hair that was grey to the color it wore in childhood and has brought it out thick and healthy. I was induced to use the article by Mr Reynolds, your Agent, here. If this letter will be of service to you, you may publish it.

Very respectfully yours

MRS. H M BORST Broadway st

INTRODUCING TESTIMONIALS.

Although we have very many of them,

FOR

THE MAGNOLIA BALM:

For when the face is covered with unsightly Pimples or Blotches the sufferer cares only to be directed to the some safe and reliable remedy

THE MAGNOLIA BALM WILL CURE

THE WORST CASE OF PIMPLES

IN A LONG WEEK

It is so safe a remedy that the contents of a bottle might be drank without harm. Physicians look upon its agency therefor it has heretofore been often offered to the world. We will name a few of the attributes which it possesses over any other article, as well as some of the conveniences which attend it.

It has greater weight of contents, the bottle weighing from 400 to 450 pounds.

Greater capacity for waking. It has a very large Oven, and also convenience for baking on the top of the stove. It has also a lever front to suit the baking bread, pies, etc. of roasting meat, and this eliminates danger of contaminating with the same taste, the most delicate being baked in the oven of the stove, an advantage which no other stove users, the range possesses.

It has perfect control of heat. The Good Samaritan has a movable draught arrangement, which enables the operator to use as little or great a fire as he chooses. The advantage which this arrangement gives over any other economist of fuel is, that while a fire may be started in the cold stove in from one-third to one-half less time the operator can, after his fire is once started, lessen the draught as much as he pleases, even to closing it entirely—thus giving him perfect control of the heat.

It has a soap stone fire back which will never burn out, and consequently will not need replacing. Soap-stone is used very extensively as a lining to coal stoves, as it is well established that nothing else will resist the effect of intense heat for so great a length of time.

Its accommodations for broiling are perfect and unequaled. It has a splendid arrangement for rolling on the hearth, giving a perfect draught, through, under and around the gridiron into the throat of the stove, keeping the coals alive and carrying off all smoke and gases arising from the food, which will naturally rise to the top over the broiler, yet plate behind the fire-back into the flue chamber where they are consumed thus adding fuel for combustion, and also to the perfect draught of the stove.

The Good Samaritan has in a single year, proved itself to be the most wonderful as well as the most efficient stove in the world. The great advantage it possesses in being able to use a greater variety of cooking at once with the greater rapidity of operation is not to be lightly passed over. Hence who have ever examined it closely can doubt for an instant, that it will, with ordinary usage, it must last from 6 to 10 years. They can have this belief on its great weight, and the small quantity of fuel necessary to operate it—for the less fuel consumed the longer a stove will wear.

It thus possesses all the attributes and qualities of a first class stove in the height of perfection and longer an experiment, but an established fact. That it has no equal we are fully prepared to demonstrate to all impartial persons, and solicit all, whether wishing to purchase or not, to call and see the stove and be convinced of the truth of these statements.

We invite every house-keeper in Penobscot County to call, and we think they will be fully repaid by examining the merits of this wonder of the age.

Descriptive pamphlets, and all information will be cheerfully furnished by us, at our store

DR. LIGETHILL,

Surgeon to the Medico-Surgical Institute for the Treatment of Deafness Catarrh and Diseases of the Eye

NO 34 ST MARK'S PLACE, NEW YORK

Will be at the BANGOR HOUSE, Bangor, Maine FOR ONE MONTH from Sept 11 where he can be consulted by all those afflicted with

DEAFNESS, CATARRH,

—AND—

DISEASES OF THE EYE

Noises in the Head,
Discharges from the Ear Earache,
Catarrh in its varied forms
and all the various Diseases of the Eye successfully Treated

Operations for Cross Eyes,
Cataract Artificial Pupils
Fistula Lachrymalis &c,
performed to the entire satisfaction of the patient

FOR the last ten years DR. LIGETHILL has paid exclusive attention to the treatment of Diseases of the Ear and Throat. They have practiced in some of the largest cities in the Union and in order to realize the wants and accommodate their patients they have permanently established in New York where all the members of the firm will have assistants to fully attend to their practice. Persons having been successfully treated by them in the treatment of the diseases with the above mentioned Organs, may refer to the number of cases they have published and to the testimonials from a large number of their patients.

[From the New York Express]

SCIENCE SUCCESSFUL. The skill which has been exercised in the treatment of deafness and catarrh by Dr Ligethill's Aural Inhaler, is one of the most remarkable results in modern practical science. We have seen the testimonials of many persons who have been cured by the use of the Inhaler, and have ourselves conversed with persons who have been benefited by the treatment. Dr Ligethill's office is at 34 St Mark's Place, but he is constantly absent on an extensive circuit of professional attendance. He has recently been consulted upon Mr Wm P Gaudet's long and painful sickness with deafness, which had baffled the skill of the most eminent physicians. The operation was perfectly successful, and the young man has even improved in height which had been stunted and strangely observed.

[From the Family Star, Water Oct 1 1861]

We are almost daily receiving from Dr Ligethill's skillful and successful hand, new evidence of the efficacy of his treatment of deafness and catarrh. He has recently restored to perfect health a young man who had been deaf in his left ear for 20 years, and was so completely short sighted as to be unable to read the time of day on the dial of a watch. He also restored to perfect health a young lady who had been deaf in both ears for 3 years, and suffered from catarrh in the worst form, and was likewise restored. Mr Ligethill's skill in the treatment of Catarrh is unsurpassed by any other physician in the country. We have seen the testimonials of many persons who have been cured by him, and we know that he does not speak for their sake. He has a very extensive practice, and now stands at the head of his profession.

[From the Syracuse Journal, Feb 14 1861]

REMARKABLE CURE OF DEAFNESS.—Mr Philips an old resident of this city was recently permanently cured by Dr Ligethill and is entirely free from deafness. Mr Philips is sixty years of age, and has been deaf for upwards of 30 years. He lives at No 16 Washington street, and relates to us with joyful emotion the above fact, and to use his own words "feels just like a boy." Dr Ligethill is a German Physician and Surgeon of highly respectable and strong testimonials. The success of his treatment of the eye and organs of hearing. For some years past he has been successful in the treatment of many of our most respectable citizens, and we feel it a great pleasure in passing his name and

[From the Hartford Daily Post, June 1 1861]

Dr Light Ligethill yesterday operated upon Mr Bridget Jones No 6 Church street for Strabismus or Cross Eyes making both eyes straight in less than five minutes. We have spoken with persons who wish to satisfy themselves of the result, and we can see no cause for doubt on the subject. The patient is a young lady of 18 years, Miss Lucy A Hale, daughter of Mr Wm Hale of this city, and the operation was performed in the presence of a large number of our citizens. We understand that Dr Ligethill has performed the operation in Boston, New York, Philadelphia, Baltimore, Washington, Richmond, Charleston, Savannah, New Orleans, Mobile, Havana, Nassau, Cuba, Mexico, Vera Cruz, Tampico, Matamoras, Brazos, Galveston, Kingston, Jamaica

In Peace or War, on land or sea,
Our flag, the ægis of the free,
Bright emblem of Columbia's glory!
Shall tell to coming years the story,
How, stout of heart, and strong of hand,
The patriots of our native land
Bore it, the nation's hope and life,
Contented yield, 'mid fearful strife,
Still on! still through the sulphurous cloud
It broke in triumph, Treason's shroud!

SUBSCRIBE TO THE LOAN. Bangor has sent a large number of men to the defence of the country. Her people have shown both patriotism and promptness in responding to the call of the government for troops. We trust they will be equally patriotic and prompt in furnishing their full proportion of money, which is as requisite as men for the prosecution of the war.—While the people are putting in their small sums let the capitalists who love the Union, (and whose property interests are in fact dependent upon its preservation,) show their devotion to the cause and their confidence in the stability of the government by subscribing at once and generously to the loan. This is what is needed to inspire the people with confidence, and to induce a general investment of the spare fifties and hundreds of the men who are not capitalists. Some of our moneed men have already subscribed with a liberal hand, but there are others whose aid and example is still needed. Will they not come forward and show their faith in the good government which has protected them in the acquisition of their property, and without which that property will become of no value?

If the people sustain the government, the loan will be one of the best investments in the country, if it is not subscribed, no investment will be good.

Great Union Meeting in Augusta

On Thursday night, says the Portland Advertiser Gen Benjamin F Butler was announced to speak at Winthrop Hall, Augusta, at 7½ o'clock. At 7 o'clock the Hall was filled to its utmost capacity, more than three fourths of the audience being ladies. Gen Butler was introduced, and attempted to speak but the tumult outside forced him to respond to the call, and the meeting was reorganized in the open air. Thousands were assembled and the enthusiasm was intense. At the close of Gen Butler's speech, Hon Caleb Cushing was introduced, who made an eloquent and patriotic address. The Governor then introduced Hon Geo F Shepley as prospective Colonel of the 12th. He was followed by Col J C Caldwell, of East Machias, and Col John Goddard. The meeting was a triumph for the good cause, and the enthusiasm of the people continued unabated to the end.—Union meetings with or without the presence of such men as Gen Butler, ought to be held in every considerable town in Maine within a month.

AMERICAN BOARD OF FOREIGN MISSIONS. The receipts of the American Board for August have reached the sum of $45 000. The amount usually received for that month has been from $10,000 to $12 000. Two legacies, amounting to $17,000, have been received, which are included in the sum stated above. The financial year closed last Saturday, and the debt will not be over $40 000. This is very much less than was expected, and the friends of the cause are gratified to find the sum so small. It was feared two months ago, that it would reach the sum of $70,000. The meeting of the Board will be held in Cleveland Oct. 1st.

SOLDIERS DECEASED. Among the deaths at the hospitals on the Potomac during the week ending Sept. 20, were those of J Dougherty, private, Co H, 10th Massachusetts, typhoid fever; John G Browne, 3d Maine; J T Ricker, 3d Maine; J H Bulen, 14th Massachusetts; G W Taylor, 2d Vermont.

THE PRIVATEER SUMTER. Capt. Adams of the bark Mary C Porter, at Gloucester, from Demerara Sept. 4, states that the privateer Sumter was furnished with coal at Surinam by an English planter named Hugh Wright, and sailed from there about September 1st, supposed bound south.

Prince Napoleon left Boston on Thursday morning at 10 o clock, in his steam yacht "Jerome Napoleon" for St. John, N B, where he was expected to arrive on Friday evening.

The Boston traveller states that Mr Leonard Bartlevant, who was arrested last week at his residence in Wiuthrop and taken to Fort Lafayette, has been discharged.

CIRCUMSTANCES OF THE DEATH OF JOHN A. WASHINGTON. A correspondent writing from Cheat Mountain, Virginia, says—

John A Washington was killed yesterday afternoon, about seven miles south of Elwater Camp. The circumstances are as follows—In company with three other officers he was approaching our fortifications with a view of making reconnoissance. Secreted in the bush by the roadside were a number of the 17th Indiana regiment, and as Washington and his companions came up the road, the Indians boys rose from their places of concealment and fired.—Washington fell from his horse on the first sound having received three bullets, two of which passed entirely through his body, entering at the right breast. One other of the quartette was also hit, but the two remaining unhurt managed to get him away by supporting him on his horse. The body of Washington was conveyed to the quarters of Col. Waggoner. He lived for the space of half an hour, and never spoke save to utter once, "O, my God!" The next day his body was sent to the rebel camp under a flag of truce. In the pockets of Washington was found one hundred dollars in United States gold currency, and a splendid gold watch. His dress was new and of the most elegant make, broadcloth coat and pants, and a white satin vest.—His shoulder straps denoted him to be a Colonel—one of the Virginia regiments, I suppose.

From the Chicago Tribune

The Siege of Lexington.

Col Mulligan's arrival with the Irish Brigade swelled the force at Lexington to about 3000 men Col Mulligan taking command as senior officer. The Brigade reached Lexington on Monday, Sept. 9, and found the attack by the enemy under Gen Pride, imminently threatening. No time was lost in the work of intrenching their position, chosen about midway between the new and old towns of Lexington, which are about a mile apart, connected by a continuous settlement. Midway stands a solid brick college, built for a college, and about this a small intrenchment had already been begun.

By Col Mulligan's orders this was extended, and the troops set about the construction of an earthwork, just out of range, with a ditch eight feet wide, enclosing a large area, capable of holding 10,000 men.

Of Lexington, it should be said that it has been considered a most important point by the Confederate forces and their preparations for its capture and occupancy abundantly declare this. Among other proofs that it was a coveted prize was the fact that Claiborne Jackson and his Legislature had been in session there as late as only the week previous to the arrival of Col Mulligan, holding the session in the Court House whence Jackson promulgated a proclamation counter to that of Gen Fremont. When this worthy body precipitately retired before the Federal troops they did so in such haste that eight hundred thousand dollars in gold coin and the State Seals left in the vault of the bank, fell into the hands of Gen Pearsey.

The college building within the fortification, became the headquarters of Col Mulligan. The magazine and treasure were stored in the cellar and suitably protected. The hospital of our troops was located just outside the intrenchments in a northwesterly direction. The river at that point is about half a mile wide, and about half a mile distant from the fort flows one. The bluff there is high and abrupt, the steamboat landing being at New Lexington.

After these several days of anxious watching and unremitting toil by the little force, on the afternoon of Thursday, the 12th inst, scouts and advanced pickets were driven in and reported the near approach of the rebels. At this time Col Mulligan had a portion of his small artillery in readiness. He had only six brass pieces and two howitzers, but having no shell the latter were useless. Two pieces belonged to the Kansas City Company and were worked by them splendidly. The Cavalry Company had only their sole arms and pistols as having no carbines or rifles, they could do nothing at long range.

Several mines were laid in front of the intrenchments by our men.

The attack on Thursday, the 12th, was led by General Rains in person with a battery of nine pieces of artillery on the angle least prepared to resist assault. The enemy were repulsed with heavy loss.

The men of the 12th warned the enemy that they had a task before them which was no easy one, since they commenced on Friday morning a new system of approaches. They scoured the entire region for its staple, hemp in bales. These were thoroughly wetted as a safeguard against red hot shot and then were skillfully used to mask the batteries of the rebels, and rolled forward as they made their advance.

The fight went on thus for several days, the enemy bringing more of their artillery into action. Following the skirmish of Thursday Mulligan ordered a portion of the old town on the east to be burned to prevent the rebels from gaining therefrom the advantage of shelter.—Meanwhile the little garrison, already worn by labor on the entrenchments began to look eagerly for the coming of reinforcements.

On the 16th Col Mulligan had sent Lieutenant Rains of Company K of the Brigade, with a squad of twelve men, on the steamer Sunshine to Jefferson City 150 miles distant, pressing the necessity for reinforcements. Forty miles below the Sunshine was captured and Rains and his men brought back to New Lexington.

The enemy were in sufficient force to throw out pickets to intercept the federal troops on route for the relief of Col Mulligan. Thus a detachment, 5000 strong, metal turned back 1 500 Iowa troops from Richmond, a dozen miles from the river, they retreating, it is reported to St Joseph. Our informant says heavy cannonading was heard at a distance several times by them in various directions from Lexington which they understood to be encounters between the enemy and these relief parties.

The situation of the federal troops grew more desperate as day after day passed. Within these lines were picketed about the grounds and trains a large number of horses and mules nearly 3000 in all, now a serious cause of care and anxiety for as shot and shell plunged among them many of the animals were killed and wounded, and from the struggles of those latter the danger of a general stampede was imminent. The havoc in the centre of the intrenchment was immense. Wagons were knocked to pieces, stores scattered and destroyed and the ground strewed with dead horses and mules.

On Wednesday the 17th an event from the first apprehended, fell upon Col Mulligan's command. They were cut off from the river and their water gave out. Fortunately a heavy rain at intervals, came greatly to their relief. But to show how severe the strains of the men, the fact may be stated of instances occurring where soldiers held their blankets spread out until thoroughly wet, and then wringing them into their camp dishes, carefully saving the priceless fluid thus obtained. Rations also began to grow short.

The fighting at this time, from the 18th to the 21st, knew little cessation. The nights were brilliant moonlight, and all night long the roar of the guns continued, with an occasional sharp sortie and skirmish without the works.

From the first but one spirit pervaded our troops, and that was no thought or word of surrender, except among some of the Home Guards, who had done the least share of the work and the fighting. The cavalry behaved nobly, and could the full details be written up, some of their share, where charges on the enemy's guns would shine with any battle emblem on record.

Gen. Price sent Col. Mulligan a summons to surrender, to which the gallant commander sent a refusal, saying, "If you want us you must take us." But the defection and dispersement of the Home Guards intensified every, and on Friday the 21st, while Col Mulligan was giving a month to some matters in another portion of the camp, the white flag was raised by Major Boone of the Home Guards, from the portion of the intrenchment assigned to him.

Capt. Simpson, of the Earl Rifles, called Col. Mulligan's attention to Major Becker's action in staying, and the Jackson Guard, Capt. McDermott of Detroit, were sent to take down the flag, which was done. The heaviest part of the fight of the day followed in a charge upon the nearest battery of the enemy, the Illinois Cavalry suffering severely.

The Home Guards then left the outer work and retreated within the line of the inner intrenchments, about the college building, refusing to fight longer, and hard again raised the white flag, this time from the centre of the fortifications, when too late of the enemy slackened and ceased. Under this state of affairs, Col. Mulligan, calling his officers into council, decided to capitulate.

The scenes at the capitulation were extraordinary. Col Mulligan shed tears. The men threw themselves upon the ground, raved and stormed in well nigh frenzy, demanding to be let out again and finish the fight. In Col Marshall's Cavalry Regiment, the feeling was equally great. Much havoc had already been done among their horses during the siege, and but little more than half of them remained.—Numbers of the privates actually shot their horses dead on the spot, unwilling that their companions in the campaign should now fall into the enemy's hands.

LIVE FROM THE SOUTH. We have had an hour's conversation with a gentleman of character and intelligence, whose affairs have detained several months in New Orleans, and who left that place one week ago today. The information he gives is exceedingly interesting and especially valuable, coming from an eye witness. He describes the business of that city as utterly dead. The most melancholy sight was the river, scarcely a solitary steamer arriving from or departing up the river. The huge monsters lying at the dock, grouped together, presented a most desolate picture. Of course nothing was doing with the shipping. In the city, literally, everything was stagnant.

Our informant states that the city up to the time of the Hatteras expedition was entirely undeceived reports to the contrary notwithstanding, and that five thousand regular troops coming down the Mississippi could have taken it.—But the capture of the harbors in North Carolina, produced a tremendous fright in New Orleans. The people at once resumed their home drill and began to erect what fortifications they could. They believe their own turn will come soon. As to the situation, this gentleman declares that the South have not the ghost of a chance except through European interference, or intervention, not simply recognition—and they admit it, but they still cling to the belief that the blockade will be forcibly raised in November.

We find the people maintain their persistence in resisting what they had been taught by their leaders to call "Northern tyranny." They begin evidently to lose heart. The next step will be to lose faith in those at the head of affairs.—One decisive victory for the North and it is the opinion of many in New Orleans, there will be a general "daving in" of the Confederacy.—*N Y Post.*

Notwithstanding former statements to the contrary, it appears, by recent reports that prisoners in the hands of the rebels are compelled to work every day for their subsistence. This being the fact, it is expected that the authorities at Washington will order all rebel prisoners taken by the U S forces to be at once employed on our fortifications and otherwise, and receive rations like contrabands instead of living at the public expense.

The Cashier of the Globe Bank, Boston, has filled the office long enough to see *seventy four* semi annual dividends paid.

No less than one thousand colored persons are employed in selling boiled corn in the streets of Philadelphia. They may be found in almost every street down town with the ordinarily acquired wooden tubs, a snow white towel, fork and cup of salt.

A Union War Meeting was held at Houlton on Tuesday last. The Houlton Times says it was the largest and most enthusiastic ever held in Aroostook. Shepard Cary presided and the meeting was addressed by Hon. Hion Bradbury, Hon S H Blake, Lieut W H Walcott and others.

COMING OVER. We hear it stated that John W Dana has recently expressed himself in favor of carrying on the war with vigor for the suppression of rebellion, saying that circumstances have during the past few weeks entirely changed the aspect of the war question. We do not know that this statement is true but have good reason for believing it. We do know that other members of the late peace party scarcely less eminent, have been converted to the war policy by the progress of events in Kentucky and elsewhere, and we do not see how any man of common sense, who really loves his country, can now plead for peace except peace shall be based upon the entire submission of the rebels.—*Portland Advertiser.*

RECRUITING. W L Patcher and Dan'l White, Jr., have opened a recruiting office at Taylor's old Store, Broad St., where the first enlisting in the city was done. They are enlisting for infantry.

NARROW ESCAPE. The Lewiston Journal says that a man named Jordan, under the influence of liquor, a few days since while sitting on the railing of the Canal Bridge, Main St., unfortunately lost his balance and pitched backward into the Canal, his head striking the wall in the fall. An alarm was given and a crowd of spectators soon gathered upon the bridge, from which they could see Jordan a foot or two under water, kicking and throwing out his hands evidently uncertain what element he was moving in. The current carried him under the bridge and he soon sunk to the bottom. One of the spectators immediately jumped into the water, dove to the bottom and soon brought up the drowning man, who had been under water nearly 15 minutes. He was carried in front of Dunphill's Barber Shop, and rolled on the ground, when he show gave evidence of life, and finally entirely brought to.

THE LOVE OF GOLD. The treasure of some men is gold, and the love of it grows so strong as to become idolatrous. Such men never rise above the merest drudgery in the world. They eat and drink, but it is to enable them successfully to toil on. Morning, noon and night, it is the same dreading slavery and subjection to the cravings of a vicious appetite. There is not one noble sentiment or feeling can live in their heart because the lust of gain fills it so completely as to leave no room for anything else.

THE GRAND HORSE FAIR, and trial of fast horses, at the Bangor Trotting Park, is to commence tomorrow and continue three days. Six hundred dollars is offered in premiums. The fair will close on Thursday with a grand Trotting Match, with $100 extra for the best trotting horse of mare, whatever raised or owned.

A military funeral of Home Guards was held at Anson last week. Three participants were present.

LOCAL AND OTHER ITEMS.

JOB WORK. We are prepared to execute job work of all kinds in a creditable style, at prices and in the neatest style.

Copies of the Daily Whig—price three cents—for sale at our counting room.

Our Carriers are not allowed to sell papers while on their routes.

Subscriptions for less than three months 50 cents per month.

The meeting of the Penobscot Musical Association, which commences its session tomorrow morning at 9 o'clock, will give a good opportunity for choirs and members of our congregations, who, in not churches, sustain the singing, to qualify themselves for the better performance of that important part of public worship. Those who do not sing will aid the cause and afford themselves a pleasant four days musical entertainment by procuring a ticket.—Expense only one dollar. For one day 37 cents, two days 75 cents, including the Concerts.

At a regular meeting of the Bangor Division, No 14, S of T, the following officers were elected for the ensuing quarter:

R Cuff W P, S E Mason, W A, M H Hall, R S, A M Burgett, A R S, H Q Norton, F S, B F Lingwood, F, Francis Gibbs, Chap, Geo Vincent, C, D F Brackett, A C, J Lots, I S, W H Hyde, O S.

Thanks to Mower & Co's express for evening papers per steamer Sinford.

The storm of Saturday morning was the heaviest we have had this season. It commenced blowing hard between two and three o'clock, A M, and continued until after noon. It commenced some hours earlier in Portland, and the steamer Daniel Webster did not leave on Friday evening. The Sanford left Boston at 5 P M, and took the storm outside but came safely and gallantly through, arriving here at one o'clock on Saturday.

The Webster left Portland on Saturday evening and arrived at 6 A M on Sunday.

The Waterville Mail says that Capt F S Hisselting of the 9th Regiment, has returned to obtain recruits, but is now confined to his room by sickness.

SINGULAR ACCIDENT. The Skowhegan Farmer says that Frank Smith, a boy about 16 years of age son of Mr Osgood Smith of that town met with a singular and nearly fatal accident, on Saturday 14th. He was sent to catch a horse which was running in the highway, and to turn it into the pasture. Nothing more was seen of him for about three hours when he was found in the pasture, senseless, the horse standing over him, very sweaty—the bridle round the neck of the horse and fastened to the boy's wrist. The appearances indicated that the boy had been dragged around the pasture and in a neighboring potato field. He remained senseless for several days.

Charles Hamlin, Esq., has opened a recruiting office in Orland. It is a company of Cavalry.

On Saturday there was a grand Union demonstration at New Gloucester, under the auspices of the young men of that town and vicinity. A flag was raised and speeches made by C C Woodman of Portland and Messrs. Record and Luce of Lewiston.

THE MADAWASKA REPRESENTATIVE AGAIN.—We see in the Aroostook Herald, a letter from W P Palmer, Esq., of Fort Fairfield, in which he states that Mr Lefevre, the Representative elect, from Madawaska, was nominated by the Republicans as a sound Union man. We stated a day or two since that Mr D was elected as an anti war man by the French settlers. Not to do injustice to Mr D we give Mr Patten's statement as above—simply remarking, in justice to ourself that we had good authority, as we supposed for our statement, viz., a private letter from W Dickey of Fort Kent, himself one of the candidates.

Geo F Shepley is said to be Colonel of the Twelfth Regiment to which will be attached a battery of light artillery. The regiment will form part of Geo Butler's brigade.

K & P RAILROAD MEETING. The first and Second Mortgage Bond Holders held meetings on Wednesday, when the annual reports were presented and accepted. The net earnings for the year ending Aug 31, 1861 are put down at $31 163. Hon Reuel Williams has disposed of all his interest in the company, and it is probable that an amicable adjustment of matters in dispute will soon be effected between the possessors of the rights and the Trustees.

We learn from the Brunswick Telegraph that a little girl about 8 years of age, Mehala Martin, fell over the stair railing in the second story of the High School building, a distance of 18 feet striking on her head and inflicting injuries which, it is feared, will prove fatal.

CAVALRY. The cavalry company to be raised in this county is so nearly full that orders have been received for one squad of the men to leave for Augusta tomorrow by railroad. The recruits are requested to meet this afternoon and evening at their several recruiting offices.

Capt True of Fort Fairfield has received authority from the proper source to raise a Company of Cavalry in Aroostook County. There seems to be no lack of Volunteers. Enlistments are going on with greater rapidity than at any former time since the war began.

TAKE CARE OF YOUR CERTIFICATE. The Portland Advertiser has the following:

Last evening Mr H H Hay, while writing at the desk in his store, discovered a dense smoke arising from the cedar, and on investigating the cause, found that a quantity of phosphorus, packed in the case, had ignited, the rat on them having eaten through the inland admitted the air. The burning material was quickly disposed of by timely immersion in water. The phosphorus had been in the cellar for a long time, and Mr Hay had forgotten that he had it on hand. Had Mr Hay fortunately been in the store, no doubt a disastrous conflagration would have taken place.

SPECIAL NOTICES.

Volunteer Cavalry!

RECRUITS WANTED FOR THE CAVALRY REGIMENT

Sound, able bodied men, between the ages of 18 and 35, weighing not less than 150 lbs., nor more than 160 lbs., will be accepted. No others need apply. Recruits will be allowed their right and left bower, saddle, bridle, holster outfit, and

D. W. SHAVER,
Recruiting Officer.

Headquarters, Night, corner Hammond and Exchange Sts., Bangor.

Cavalry Notice.

Twenty four Buglers, 24 Farriers and Blacksmiths, 12 Saddlers, and 12 Wagoners will be enlisted at the State House, Augusta, by the subscriber, for the Maine Cavalry Regiments. Immediate application should be made.

JOHN GODDARD, Colonel

Sept 28, 1861.

State Dailies are requested to copy two weeks.

To the Afflicted with Deafness

Have this day been made almost a new man by an operation by Dr. Lighthill which restored to me my hearing, of which I have been deprived for nearly 17 years. My deafness came on gradually I am 54 years of age, and reside in Winterport.

BOOTS AND SHOES

MADE ON

PLUMER'S PATENT ANATOMICAL LASTS

[From J V C Smith M D formerly Mayor of Boston]

PLUMERS PATENT BOOTS

The Undersigned has worn a pair of these improved Boots and feels grateful to the Inventor for the comfort derived from them. The nice adjustment of the sole to every part of the under surface of the foot is an important circumstance which seems to have been entirely overlooked till Dr Plumer planned his Last and Boot upon *truly scientific principles.*

Those who have once had an opportunity to test the real advantages of these Philosophically made Shoes will hardly be reconciled to wear any other.

J V C SMITH

BOSTON, July 26, 1861

J C PLUMER, M D,

Dear Sir I am greatly delighted with your newly invented Boots which I have worn during the past winter and only wonder that the world should have been so stupid as not to have made the discovery half a century ago. Any one with a grain of common sense and a moments reflection cannot fail to see that your PATENT BOOTS AND SHOES are *perfectly adapted to the foot* (that wonderful piece of *Nature's Mechanism*) giving to *every portion* of it a *full and equal support*; and I am sure that those who once make trial of your new inventions will never go back to the old fashioned boots or shoes, which are so prolific of Corns, Bunions and a thousand other troubles. Your *"Patent Boots"* seems to be part and parcel of our *Physical structure* supporting the foot firmly *giving steadiness to the gait* and promoting human comfort to an eminent degree especially in walking over rough surfaces.

I wish I knew of some means by which I could make it known to every man, woman and child in Christendom, the nature and importance of your invention.

Very truly yours,
MORRIS MATTSON, M D
No 6 Summer Street.

PORTLAND, July 12, 1861.

DR. PLUMER—

Dear Sir Having learned the principle upon which your Anatomical Last is made, I was favorably impressed as to its efficiency in relieving difficulty which all have experienced, who have to walk considerably, viz severe pain in the feet after much walking. After having worn the boots made upon the "Anatomical Last," I found my anticipations more than realized. I can walk nearly all day without experiencing the above named difficulty in the least degree. I also escaped the torturing process of breaking in my boots, for they were as easy at first as after they had been worn.

H. BURDAMS, M D
Corner of Congress and Temple Streets.

have been engaged for over six months in the manufacture of BOOTS and SHOES on the

"Plumer" Patent Last

with decided success. Experienced workmen are employed the BEST stock used and a perfect fit guaranteed.

Additional News from California—The Massacre of an Emigrant Party a Hoax—Release of Col. Blair by order of the President—Gen. Fremont's Official Dispatch of the Surrender of Lexington—Rebel Fortifications on the Lower Potomac—The Kentucky Unionists Call for Arms.

SAN FRANCISCO, 18th

A new Directory of San Francisco estimates the present population of the city at 62,228. Of these 40 00 white males, 37,000 white females, 2,000 Chinese and 2000 negroes. There were 12 votes at the last election. San Francisco was never so prosperous as at present.

The Marysville Journal states the story of the reported massacre of a party of emigrants at Goose Lake was a heartless hoax.

The Portland Oregonian of the 10th instant contains the following late news from the Indians. It is favorable to peace. There will be more trouble with the Nez Perces if honor is kept from them.

Still discoveries have been made in a tributary Salmon river, and a large party has left for the Fork for the winter.

We have been received from Honolulu. News is stationary. The cattle disease was subsiding, and pursued chiefly to animals drinking poor water.

FORTRESS MONROE, 26th

A flag of truce which came down from Norfolk with some ladies, was stopped near Sewall's Point and the passengers brought off in one of the boats. Commodore Goldsborough will not allow flags of truce to come near the fleet. A schooner from Richmond this morning ran the blockade at James River and reached Norfolk.

ST. LOUIS, 27

The following is a portion of the note directed to Blair by the Adjutant General here by order of Gen. Fremont "In consequence of the letter from your brother, Postmaster General, followed by a letter asking your release on public reasons, you are hereby released from arrest and directed to resume your sword and to join your regiment for duty."

Mr. Hudgins arrived here today with a flag of truce from Lexington, with propositions to surrender. Col. Marshall of the 1st Illinois cavalry, is detained at Lexington, for P. L. Hudgins, agent of the State Convention, is now confined at Jefferson Barracks here. It is understood that the proposition was accepted and Hudgins sent here.

The following is the text of the original telegram sent by Gen. Fremont to Washington relative to the surrender of Lexington:

HEAD QUARTERS, Western Dep't, St. Louis, Sept. 23d, 1861.

To E. D. Townsend Adjt. General—I have received from Brookfield, that Lexington has surrendered to Price and others, he having cut off Col. Mulligan's supply of water.

I am taking the field myself and hope to destroy the enemy either before or after the junction of the forces under McCulloch. Please notify the President immediately.

(Signed) J. C. FREMONT.

WASHINGTON, 27th

A gunboat Yankee arrived at the navy yard here yesterday. She was not molested by the rebel batteries at Freestone Point which is about 23 miles from Washington.

The transport Delaware had seven shots fired at her yesterday from Freestone Point. The vessel represented as being a large one with a rifled gun.

It is thought by officers attached to the Potomac that there are others between Freestone Point and Aquia Creek but they are yet concealed by the forest.

The rebel army seems to be first, build the works and then fell the woods in front. This view of the rebel operations is strengthened by the reports from Cockpeu, who says that the rebels are in force at other places besides Freestone Point and Aquia Creek. They may be building forts and drawing cannon.

Reinforcements, 4000 strong, under Sturgeon, have arrived at the ferry, but there is no means of crossing the river in time. Lane's force from the Shenandoah, and Davis from Southeast with a total of 11,000 men in all, could not get there in time.

NEW YORK, 27th.

The schooner Arabella, from Aspinwall, arrived at Patterson, Sept. 20th, lat. 32, lon. 75, was chased by a schooner with an English flag and Union down, but finding the Arabella too fast she hoisted the rebel flag. The same vessel the next day chased a long, but met with the same success.

NEW YORK, 28th

The Washington despatch says that the city is full of rumors of battles on the Potomac by land and water.

Gen. Franklin's division went out in the morning on a foraging expedition, but they would not accept the wager of a battle.

Kentucky Unionists ask for arms and ammunition and they will take care of the rebels in that state.

Wells's despatch makes the following report: The President today forwarded Gen. Blair from arrest. Gen. Fremont says that he had not time to mature and prefer charges against Col. Blair when Mr. Blair took the above action.

Wells's despatch says the following officers resigned and their resignations have been accepted: Charles V. Lord Quartermaster Major and 2d Lieut. E. S. Morrill, Co. C. de Rebel batteries. They are planted now at Shipping Point, Occoquan Creek, Aquia Creek and Matthias Point. Some are indeed formidable. It is proved that the rifled guns which we noticed across the river

PHILADELPHIA, 28th

The steamer Brooklyn has arrived from South of the Mississippi for repairs. She is conveying the bark Mesec from Rio for New Orleans. A prize crew was put on board of her, and she sailed for Philadelphia.

MRS. WINSLOW,

An experienced nurse and female physician, has a soothing syrup for children teething which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will relieve the child, secure to regulate the bowels. Depend upon it, it will give rest to yourselves and health to your infants. Perfectly safe in all cases. For sale by druggists throughout the world.

TO THE PUBLIC

A certain cure of the Stewart Stoves has been made in the Market during the past fortnight. Slight attempt having been made to imitate the same or trade mark. It is deemed important that the public should know how to distinguish genuine articles when making purchases.

The genuine P. P. STEWART Stoves, name on the hearth-stone. The names of the only manufacturers, Fuller Warren & Co., are on each Stove. Beware of COUNTERFEITS. For sale in Bangor by ALBERT NOYES.

WASHINGTON 29th

During last week it was frequently reported from day to day that our troops had taken possession of Munson's Hill, that when last night has long predicted event took place it found few believers among those best located by sometimes reports. A personal visit, however, puts the fact beyond doubt. The American flag now floats there in place of that of the rebels. Detachments from Gens. Richardson's, Keyes and Wadsworth's brigades and also from Gen. Franklin's division, now occupy Munson's Hill, being a portion of Col. Perry of the 11th Michigan regiment. Early this A. M. the picket from Gen. Smith's division advanced and now occupy Falls Church. Neither this nor the preceding movements met with any opposition whatever, as the rebel army had on Friday night retired from the whole line of their positions on the line of Washington. Upton's Hill, the made of Falls Church, is necessarily included among the points now held by the Federal forces.

The Work of the enemy at the places they had evacuated were, in a military view, almost worthless being nothing more than rifle pits of very common construction. The positions at Munson's and Murray's Hills afforded the rebels an unobstructed view of all our fortifications and other defences. The appearance of the deserted works of the enemy, however, proves they were deficient in those arrangements which serve to make a camp life comfortable, having no tents but merely shanties rudely constructed. There were no signs to show that they had ever mounted any guns.

Our troops are now employed as to show that they do not merely intend temporarily to occupy their present position. The advance of Gen Smith on Falls Church from Chain Bridge was accompanied by events of the most lamentable character. Moving passed Vanderwerken and Vanderverg's houses on their way to the former place, at which place about half a mile from it, by some unaccountable blunder, Col. Owen's Irish regiment, in the darkness of the night, mistaking for rebels Capts. Mott's battery, which was in the advance sustained by General Bakers California Regiment Baker's Philadelphia Zouaves and Col. Faulkner's cavalry, fired a full volley into the troops last mentioned killing and wounding a large number. The California regiments not knowing whence the firing came, returned it with marked effect. The horses attached to Mott's battery became unmanageable and the tongues of the cannon were broken owing to the narrowness of the roads. Lieut. Bryant having mounted of the first section, ordered the guns to be loaded with grape and cannister and soon had them in range to rake the supposed enemy when word was sent to him that it was in the company of friends. All was excitement and a long time elapsed before the actual condition of affairs was ascertained and confidence reestablished.

Many conflicting rumors prevail as to the parties on whom the blame should rest, but Gen Smith immediately ordered Col Owen's regiment to fall back to camp.

The killed were Edwin Morse of Company L, Joseph Paschal of Company H, Thomas White of Company H, and Sergeant Alexander Philipson of Company N.

The wounded are Barry Clinton of Company L, slightly in the knee; sergeant Bond, Company K, in the head, W. Ogden, Company H, in the head, T. Gregory Company D, shot in the leg, E. G. N. Blakely, Company N, shot through the thigh, W. Smith, Company I, Henry Watson, Company N, G. W. Martin, Company F, Martin Gooding, Company L, Luke Labelin, Company L, and Atwood, Company L, do.

In Col Baxter's Fire Zouaves, none were killed, but the following named were wounded: Sergeant Grey, Company D, shot in the head, Benj. Floyd, Company D, shot in the head, Lieut. Shorer, shot in the legs and head, Geo. Hargraves, shot in the legs. None of the wounds will prove fatal.

John Donald, Company E, 1st Pennsylvania volunteers, is mortally wounded.

In Capt. Ovens's regiment sergeant Glass, Company B, was killed, and Sergeant Wolf, McCausland, Chas. Shields, of Company E, were wounded.

The killed were all buried today with military honors, while the wounded are received in the hospitals, in Georgetown and Washington, where they are receiving the best attentions.

There are reports of others being killed, but no positive information has so far been obtained concerning them.

The conduct of the Federal troops today while occupying the ground recently evacuated by the rebels, resulted in the burning of property to the amount of from $200,000 to $40,000, including houses with their furniture, but which were untenanted. No distinction was made as to the political character of their owners. The wantonness will doubtless undergo investigation by the military authorities, as they were strongly condemned by Gen. McClellan.

Gen McClellan who went over to the Virginia side at an early hour today, visiting the various localities recently vacated by the rebels.

A Private was summarily shot today by his superior officer for insubordination in refusing to perform duty.

The most probable theory is that the rebels are making a feint of a retreat, as they did at Bull Run, with a view of drawing our troops into an ambush. This opinion is strengthened by the repetition of a conversation which a farmer residing in the neighborhood of Falls Church overheard the day before they evacuated that place.

The disposition of the rebels show that they had at no time more than 10,000 men in front of Washington and at the point which they have just evacuated.

LOUISVILLE, 28

Hon. Horace Maynard of Tennessee, is at Frankfort.

Agents are now stationed along the Ohio river, to prevent the smuggling of arms into Kentucky.

The Bulletin says that 500 soldiers from Terre Haute, have gone up Green River, Ky., and taken possession of Locks Nos. 1 and 4. One shot was fired at them, which was returned, killing their assailant.

Alany Union families have fled from Green River County to Evansville.

A regiment of Cavalry from Ohio has gone up to camp near Covington, on the Lexington turnpike.

Cynthia, Ky., is occupied by Federal troops.

National flags were thrown to the breeze from the Louisville Hotel and the Exchange House, today.

Seventeen rebels, among them Cassius M. Clay and Col Harris of Madison Ky., were brought to Louisville this afternoon, and committed. A writ of habeas corpus in Clay's case has been issued, returnable before Judge Catron on Monday.

Benson Ormsby a lawyer of this city, was arrested but was discharged on taking the oath of allegiance.

It is reported that some of Buckner's men attacked the Union camp at Mill River, 40 miles from Bowling Green under Col Hawkins. The rebels were badly whipped.

The Union men are enthusiastically flocking to Col Hawkins from all directions, with shot guns and rifles.

FRANKFORT, Ky., 28th.

The Senate Committee reported that the expulsion of Ewing, Sibortooth and Twin members of the Legislature was illegal, and that they have procured their release.

The thanks of the General Assembly have been voted to Ohio, Indiana, and Illinois, for aid in arresting the invasion of Kentucky.

ST. LOUIS 28th

Gen Hunter and staff paid their respects to Gen. Fremont at about 9 o'clock this morning.

Gen. T. L. Price has been ordered to take the field but his brigade not being in readiness to do so he will remain in command here.

Col. White, who was supposed to be mortally wounded at Lexington, is recovering.

Special despatches to the Democrat dated Jefferson City today, gives the following intelligence:

Passengers report everything quiet at George town. Gen Sigel and Davis are at that point directing operations.

Among the passengers by the train just arrived are the following officers of Col. Mag shall's cavalry regiment from Lexington:

Major L. P. Jenkins, Capt. James Foster, Capt Paul Waters, Capt James Burnks, Lieut. Proctor, Lieut. Just, Lieut. Knight and Lieut. Blair. These officers were released by General Price on their parole of honor. They left Lexington on Thursday morning, coming in wagons overland to Sedalia, arriving there last night. To their knowledge up to Thursday, Price had not started any portion of his forces towards this direction, though it seemed have been doubted they have remained in ignorance of it.

Capt Foster was informed on the morning after the surrender of Lexington by a rebel Quartermaster that he had issued that day 3,000 rations and the Captain thinks the force has, since that time, increased by addition from the country round, to about 62,000. Gen. Captain Foster represents that men were flocking in from all quarters to join the force of Gen Price. He had heard nothing definite in regard to the whereabouts of McCulloch. The rebels talk him that McCulloch's force was from 10,000 to 15,000 men. The officers think that Ben McCulloch is moving on towards Jefferson City.

The troops of Price had devastated the country for a circle of over 20 miles. Every barn field and mill had been cleared of their contents. The fields that were four days ago covered with ripe grain, are now as bare as a desert. The dwellings that were filled with comforts and necessities of life, have been stripped of every thing contained in them. Money, silver ware, clothing, bedding, and in fact, everything has been seized and the owners mulled. Threats have been made against the lives of Union men as well as against all those who have remonstrated against these lawless proceedings.

A few members of Jackson's Legislature had assembled in the town and passed an ordinance of secession, and when our informant left they were discussing an act providing for the confiscation of the property of all persons opposed to the Southern confederacy. Other acts of a very severe character were also under consideration. All the federal officers taken prisoners have now left Lexington except Col. Mulligan who remains there to settle up some business affairs. He is not wounded as reported.

LEAVENWORTH, Mo., 28th

Cleveland, the leader of a band of Jayhawkers, has been arrested by a military posse, and held in bail for examination.

The Kansas 3d Regiment marched for Lawrence tonight, where they will encamp and recruit.

There is nothing new from Gen. Lane's command.

Scouts who came in this morning, report that a strong column of rebels was on the march northward from Lexington. Their supposed destination is St. Joseph.

All the organized companies of the Kansas militia are ordered to rendezvous in this city immediately.

ST. LOUIS, 28

Col. Mulligan's regiment arrived here today, and are quartered at the Sechos Barracks, where they will be paid off.

WYANDOTTE, Kansas, 24th.

The following order has been issued here:

In accordance with Section 4th, article 8th of the Constitution of the State of Kansas, I hereby order every man in the State, between the ages of 18 and 45, capable of carrying arms, to immediately enroll himself in some company in accordance with the militia laws of the State, and each company is hereby ordered to hold itself in readiness for immediate marching orders which man will furnish his own arms or his own ammunition. Any refusal of any to obey this order will be taken as an evidence of his disloyalty, and he will be treated accordingly.

(Signed) J. H. LOOT,

Lieutenant and Acting Governor and Commander in Chief.

NEW YORK, 29th.

The gunboats Rhode Island and Connecticut arrived from Fort Hickman last night. The prize Judith, mounting four 42 pounders and a heavy pivot gun, was captured and burned on the 14th, by an expedition from the frigate Colorado, under Lieut. Russell. The Judith was anchored near the Pensacola Navy Yard, and after a sharp engagement, she was set on fire and destroyed. Chas. L. Lamprier, boatswain, Mott, of Boston, G. R. Henry, seaman, of Flala, and Jeffrey, were killed, and 15 wounded.

Several Rebels were killed by shells from our boat howitzers. The Colorado remained at Fort Pickens and the Niagara and Water Witch were at the South west Pass. The Potomac arrived at key West on the 22d.

DARNESTOWN, Md., 28th.

Gen. Blenker has been slightly indisposed for a day or two, but his complaint is incident to the season. He is, however, somewhat better today.

It is believed that Gen Peck of New York, a West Pointer, will take command of the Sixth brigade of Gen Banks' division in place of Col. Donnelly of the New York 28th, is acting commander at present.

Col Bidle's regiment and the Kane Rifles left this morning to join Gen. McCall's division near Washington.

Strong rebel pickets frequently make their appearance near the Point of Rocks, opposite Col Geary's command. Last Saturday morning they were seen to leave the island below the ruins of the bridge just before daylight. This island comprises several acres of dense foliage. It is separated from Virginia by a narrow channel. Col Geary thinks they are in the habit of coming over there every night.

On Friday night the rebels made a demonstration as if they would cross at the Point of Rocks. Col Geary set a trap to catch them if they carried out their supposed plan. While watching the movements he discovered that signals were making at a farmer's house on the Maryland shore, the inmates of which were secluded and held. The rebel force did not attempt to cross.

Last week Capt Parden, of Co. A, Geary's regiment made an excursion over the river opposite Berlin, securing 8 prisoners, 8 horses, and 10 head of cattle.

NEW YORK, 29th

John Clark of Boston, Captain in the Commissary Department, has been sent to Hatteras for duty by Gen. Wool.

The Herald's special Washington dispatches contain the following:

There was a long session of the Cabinet today, at which Gen. McClellan was present.

Our pickets from Chain Bridge are now advancing, and gradually forcing the enemy towards Falls Church.

Capt Drape of the 14th with 14 men, made a reconnoissance on Saturday morning from Fort Albany, towards Munson's Hill. They came on a body of mounted rebel cavalry and captured one of them. The rest, escaping Munson's and Mason's Hills were found to be deserted, and together with Upton's Hill are now occupied by our troops in large force, under Gen. McDowell. The rebels have retired about four miles back.

All the rebel entrenchments fronting Arlington Heights have been abandoned, and are now occupied by Federal troops. Gen McClellan and staff reconnoitered the works on Munson and Mason's Hills, on Saturday afternoon.

It was reported Saturday evening that Johnson at the head of 25,000 rebel troops, is moving from Leesburg towards the river. It was also reported that the rebels are pushing large forces towards the Fairfax neighborhood of Pohickville, and down the river towards Acquia Creek.

The indications are that the rebels will attempt to cross the Potomac immediately, but their movements are closely watched and preparations to meet them will be promptly made.

The weather is quite cold, and rebel prisoners state that their forces suffer considerably from it.

LEAVENWORTH, Mo., 28

Reports from a reliable source from Gen Lane say that after his successful engagement with the rebels at Papensville he made a forced march on Osceola and succeeded in capturing a large supply train left by General Rains and Price, together with $100,000 in money.

The command of Gen Lane is now supposed to be on its way north to join Gen Sturgis.

Reports of Gen McCulloch being in the vicinity of Fort Scott with a large force are still addressed to but nothing definite is known in regard to his movements.

WASHINGTON, 28th

A foraging expedition started this morning from Gen Franklin's division, consisting of infantry, cavalry and artillery, in strong force. They proceeded to Elbell's Hill, on the Orange & Alexandria Railroad 8 miles from Alexandria. As they advanced beyond our picket the rebels retired to Springfield Station, a mile and a half beyond Elbell's Hill. From this hill, which our forces temporarily occupied, detachments went in various directions for forage. A fine view of the surrounding country was afforded, but no earthworks or new constructions of the enemy could be seen. The object of the expedition was successful, and large quantities of hay corn and oats were transported to the camp. Not a gun was fired on either side during these proceedings. The party did not return until late this afternoon.

A company today visited the estate of the late John A. Washington, recently killed in Western Virginia, and brought away about 500 bushels of wheat, nearly 600 bushels of oats, 10 bbls of fish, all of which have been stored in the commissary department at Alexandria.

SWEETWATER STATION (Fort Bridger) Sept. 84 miles east of Salt Lake City, Sept. 21.

The Pony Express with San Francisco dates of the 14th, passed here this morning.

Business generally has been active. The jobbing trade with the interior is large, including the purchase of Government stores for army purposes.

The enlistment of troops for the five regiments last called for goes on moderately well. The pay of soldiers being no more than the California wages, seems to cause regret, volunteering at this time, when the State is prospering. Still, the number of volunteers now called for will be obtained.

The State election returns are nearly completed, with the following result—

Stanford, Republican, 51,027, Conners, Union democrat 38 963, McConnell, Breckinridge democrat, 31,216.

Among the counties of the State which are regarded as largely sympathizing with secession, Los Angeles and Shasta are the only counties which gave the Breckinridge candidate a majority.

NEW YORK 29th

Schr Arcole from Alexandria, reports 27th while anchored in the Breakwater during a heavy gale, saw a three masted propeller come into Cape Henlopen, blowing her whistle, and apparently in a sinking condition, as she was run ashore. It is supposed that she was a transport.

DISEASES CURED,

EITHER of a long or recent standing, resulting from Secret Ills, Cancer, Humor, Local Weakness or General Debility, Irregularity of the system, Loss of Vital Powers, from the use of Mercury, and all Diseases which create Impurity of the Blood are cured without the use of Mercury, leaving the blood in a pure and healthy state.

DR. BROWN

Has had a long and successful experience in the treatment of these diseases, his character is a guarantee that no Mercury will be used. Office No. 3 Main Street, Bangor, corner Brick Block in Pickett's Row. He will not attend to business at other hours than those specified.

Disease in all Stages and Forms

Originating in the use of Mercury, whether by the patient himself or by improper treatment of a Mercurial Physician, may be cured by the use of Mercury. Invalids who cannot call upon him personally can consult by letter. Either way confidential.

Patients will be furnished with medicine at his office, whereby the well known evil effects of Mercury may be avoided. Office hours from 9 A. M. to 1 P. M. and 6 to 8 P. M. sept19 eod3m

CORNS for Bunions, Corns, Nails, Etc. N. S. HARLOW, 4 Smith's Block. sept19

PERUVIAN SYRUP

OR PROTECTED

SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,

Or Impaired and Imperfect Digestion;

AND THE CONSEQUENT

DETERIORATION OF THE BLOOD;

AND FOR THE FOLLOWING FORMS OF DISEASE, Most of which originate in DYSPEPSIA:

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS, PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY, AND REQUIRING AN ALL-HEALING ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, and diseases of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of iron as shall enter the stomach in a Pectoral state, and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies, as it delivers it in the only form in which it is possible for iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of iron and other medicines have been found to be of no avail.

Certificate of A. A. HAYES, M. D., of Boston.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without oxidation, has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by using ANTISEPTICS AWAY FROM AIR, and this solution may replace nine tenths of the ferruginous chlorides and tartrates in the Materia Medica.—

A. A. HAYES, Assayer to the State of Mass.

16 Boylston St., Boston.

Certificate of Jas. R. Chilton, M. D., of N. York.

It is well known that it has been found very difficult to preserve in a PALATABLE form, for a reasonable length of time, compounds of the Protoxide of Iron.—The "Peruvian Syrup," I am pleased to say, accomplishes this desirable end.—

JAMES R. CHILTON, M. D., Chemist.

92 Prince Street, New York, Aug. 3, 1859.

Certificate from well known Citizens of Boston.

The undersigned, having experienced the beneficial effects of the PERUVIAN SYRUP, do not hesitate to recommend it to the attention of the public.

Rev. John Pierpont, Peter Harvey,
Thomas A. Deane, James C. Dunn,
T. H. Rendall, M. D., Samuel Mayo,
Thomas C. Amory, Rev. Thos. Whittemore.

Certificate from well known Citizens of N. York.

New York, Nov. 17th, 1852.

The experience which we have had of the PERUVIAN SYRUP in cases in which the iron has exhibited its tonic properties, and the cure of many diseases, satisfies us that it is a medicinal agent of remarkable power and deserving the attention of invalids.

ATWOOD'S

Quinine Tonic

BITTERS.

The best Aromatic Tonic ever offered to the Public.

Recommended by the Faculty.

For its Superior Medicinal Qualities!

THIS elegant Compound which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine* combining all the peculiar virtues of PERUVIAN BARK carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the invalid.

It is a mild tonic to the Stomach, increasing the appetite, assisting digestion, pre-eminently good in Dyspepsia, strengthening and invigorating to the digestive and nervous systems after protracted disease, and in fever and ague, or kindred complaints it is said to invigorate.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not one to buy better general remedy.

One of the very best physicians in Boston said "*that it is the very best preparation of Bitters that has ever been offered to the public.*"

Put up in half pints as well as quart bottles, in order that all may substantiate the truth of its superior merits.

For further particulars reference is made to the printed circular.

For sale by CHAS. H. ATWOOD, 10 Central st. Boston, and by druggists everywhere.

Liberal terms to the trade.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

GALENA, Ind., 6th June, 1858.

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in ulcerous sores on my hands and legs; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome in the extreme. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disease grew worse, and at length I was reduced so much by the loss of blood and misery that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you put forth was good. I saw it was delicious, and I drank it, and it did me good. I took it as you advise, in small doses, a teaspoonful over a month, and said almost three bottles. New and healthy skin soon began to form under the sick, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You may well believe that I feel well. I am strong when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALBEY.

We Authority's Fire, Blotches or Eruptions, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preb s writes, from Salem, N. Y., 12th Sept., 1858, that he has cured six persons with Ayer's Sarsaparilla of the most aggravated form of Scrofula, of which the disease was the result, and also a dangerous *Malignant Erysipelas* by large doses of the same; and he cannot speak too strongly of its virtues.

Scrofula Humor, Goitre or Swelled Neck.

Edwin Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured my daughter of a humor and swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. S. Hanning, of New York City, writes: "I most cheerfully comply with the request your agent is urging I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases of* the Scrofulous diathesis. I have cured many by it in the cases of Leucorrhœa by it, and none where the complaint had existed for years, and had resisted all other treatment, have failed to be cured. Nothing with great knowledge equals it for these female derangements."

Edward S. Murrow, of Newtown, Ala., writes: "A dangerous ovarian tumor in one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Her physician thought nothing but a cure could afford relief, but he preferred the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 20th August, 1859.

Mr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and myself bear testimony to some of the cures I have realized with your Sarsaparilla.

I have dealt with it, many patients, most of the time, in cases in which it is recommended, and have had the satisfaction of seeing it prove wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were painful in the extreme, and the top of his mouth was perforated by the disease. Another was attacked by secondary symptoms in his nose, and the physicians had recommended a dissection of the nose, fearing the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla, the ulcers healed, and he is well again, with no trace of the disorder left in his face. A woman who had been treated for the same disorder, by mercury, was suffering from this poison in her bones. She had become swaying at times in the saddle, from the severe and excruciating pain in her joints and bones. Your medicine cured effectually by your Sarsaparilla in a few weeks. I have known its fame in Louisiana, where I now reside, for many years, but never before witnessed a cure, which I felt satisfied, I could not, and I have seen many cures
